The instant application has been examined. Claims 1-19 are allowed.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In The Abstract:

In line 1, the word, "comprises" is deleted and the word, "includes" substituted therefor.

The following is an examiner's statement of reasons for allowance: The claimed invention is deemed unobvious over the cited art of record because such art does not teach or reasonably suggest the overall aspects of a privacy screen for a display having a polarizing axis comprising a) a first uniaxially birefringent film for transmitting light received from the display wherein the light is substantially linearly polarized along the display polarizing axis, the first birefringent film having a thickness  $d_1$  and a retardation value  $R$ :

$$R=(n_e-n_o)d_1/\cos\theta;$$

$\theta$  being the angle of light incident upon the screen from the display and  $n_o$  and  $n_e$  being the refractive indices, respectively, along the ordinary and extraordinary axes of the first birefringent film, wherein  $d_1$  is greater than 25 micrometers so that  $R$  is responsive to changes in  $\theta$  in combination with a first polarizing film having a polarizing axis positioned to receive the the substantially linear polarized light transmitted from the first birefringent film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
